

Onescreen to Participate in One of the Largest Tech Shows in the World, Bags its First GITEX Event in 2022

Dubai, September 2022

For the first time ever, San Diego-based EdTech provider Onescreen will be attending the largest technology gathering in the region in Dubai, United Arab Emirates.

About GITEX

The Gulf Information Technology Exhibition, or GITEX Global, takes place in the Dubai World Trade Center annually, with the promise of exciting tech opportunities and delivery of some of the most revolutionary products and services to transform the digital landscape. The purpose of this event is to bring together some of the most influential companies and groundbreaking technologies under one roof and identify emerging opportunities and latest products.

This year, the 42nd technology week of GITEX Global will be held on the 10th-14th October, as the United Arab Emirates turns 50. With more than 100,000 attendees from 170+ countries, the GITEX event will be jam-packed with impressive and innovative technology universes, 230+ government entities for private-public partnerships, unveiling of large digital projects, and an all-inclusive global event of 7 tech communities. It is also the region's first green tech event of this large scale, with a huge focus on green business models and climate investments.

“ We are absolutely thrilled to be attending the GITEX event this year to showcase the brilliant technologies that Onescreen has developed that transform the scope of learning in the education sector.

Sufian Munir
CEO of Onescreen

Sufian also added, "Our interactive screens and exceptional Guru Support services are well sought after in the education, healthcare and business sectors, and we have many more exciting products that will be showcased at the GITEX event".

Onescreen Solutions' Achievements Over the Years

Over the years, Onescreen has time and again pushed the boundaries of technology, and has focused on client services as part of their hardware, software and security solutions. With their unique Guru Support offering that allows customers to get free live demonstrations and guidance through audio/video calls and live chats at any time, Onescreen has risen above its ranks in the smart technology industry through its valuable client services offerings.

Onescreen has also partnered with DVCOM, one of the leading distributor and solution Provider across UAE & GCC Countries, to provide the clients with the best technology and highest quality collaboration solutions for all your needs.

"OneScreen is awesome! I use it for my livestreams, course creation process and to teach my students to leverage all things related to digital marketing. The Screen Skills support team helped me learn all the software. If you are in the market for touchscreen TV, OneScreen is the way to go!" mentioned Alan N, Principal - Founder of Blend | Logic.

Through consistent testing and customer feedback, Onescreen makes advancements to its products, customer service and technologies, and has now become a trailblazer of interactive display screens and collaborative software tools.

Its dedicated teams and people-centric approach is what fuels Onescreen's growth trajectory, leading the company to be ranked 481 on the 2021 Inc. 5000 list of the Fastest Growing Companies in the US for 2021.
